

International School of Poznan

International Baccalaureate World School no. 002709

## Covid Update Posted September 15, 2022.

As per the current Ministry of Health regulations, there is no requirement for Schools to inform parents officially regarding individual cases of covid infections among students. Consequently, please be informed that we will not be sending emails alerting you of individual cases.

Additionally, although there is no requirement for parents to inform the school regarding their child's covid infection, we urge you to exercise caution and take a common sense approach in this matter. If your child displays symptoms of any infection, please do not send your child to school.

It is important that we all work together and cooperate to ensure that we keep our School community safe and on-site for the entire School Year.

Nonetheless, if there is an important matter, you will be informed immediately. We are constantly tuned into updates from the Ministry of Health and Education and we will follow their guidance and direction.
